ANCORS offers the following professional short courses:

- Fisheries Management (10 April to 13 April)
- Law of the Sea (25 June to 29 June)
- Maritime Regulation and Enforcement (2 July to 6 July)
- International Fisheries Law (to be confirmed)

Places are limited. Registrations will be accepted in the order in which they are received. Other specialist courses can be tailored to the needs of specific clients.

**Professional Short Course outlines**

**Law of the Sea (5 days)** provides a comprehensive analysis of the UN Convention on the Law of the Sea from a legal and policy perspective. It sets the historical development of the law of the sea; a framework for understanding the Law of the Sea Convention; baselines under the Convention; maritime zones under the jurisdiction of the coastal state; the high seas; the deep seabed; maritime boundary delimitation; Australian maritime boundary issues; protection of the marine environment under the Law of the Sea Convention; the legal regime for managing marine resources in the exclusive economic zone and continental shelf; the legal regime for managing marine living resources on the high seas; practical aspects of the continental shelf; emerging issues; and dispute settlement under the Law of the Sea Convention.

**Maritime Regulation and Enforcement (5 days)** focuses on the specific enforcement and regulatory powers of states in the various maritime zones of jurisdiction. The course addresses the prescriptive and enforcement powers of coastal states and the rights and freedoms of other states. Relevant policy and legal considerations in the development and enforcement of maritime jurisdiction will be covered, including: international law considerations in maritime regulation and enforcement; regulation and enforcement in internal waters, the territorial sea and contiguous zone, in archipelagic waters and international straits, in the exclusive economic zone and on the high seas; regulation of marine scientific research; regulation and enforcement of marine environmental law under the Law of the Sea Convention; regional cooperation in maritime enforcement; sea border incursion indicators; protecting Australia’s maritime borders; post-9/11 issues; and the Crimes at Sea Act.

**Fisheries Management (5 days)** examines the international principles for sustainable fisheries management, ecological aspects of fisheries, fisheries economics, fisheries data collection and analysis, and fisheries and coastal resource management. It examines the application of international fisheries management principles and measures in a number of national jurisdictions. The course also discusses the management frameworks established by regional fisheries organisations and the challenges confronting member States in implementing such frameworks.

**International Fisheries Law (5 days)** addresses contemporary issues in international fisheries law. It examines the fisheries provisions of the UN Convention on the Law of the Sea, and the gaps and shortcomings in the law of the sea framework. The course addresses the political economy of international fisheries and the historical evolution of international fisheries law; the fisheries regime under the Law of the Sea Convention; post-law of the sea global binding and non-binding instruments; regional fisheries organisations; fisheries access agreements; GATT/WTO and international fisheries law; the compliance and enforcement framework; and emerging issues in international fisheries law.

**About ANCORS**

ANCORS has an established reputation for expertise in ocean management and law, fisheries law and policy, and maritime security, in Australia, throughout the Asia-Pacific region and farther afield. ANCORS undertakes academic research and education, also provides professional training, and research services and other assistance to policymakers and regional organisations. For more information about ANCORS, visit www.ancors.uow.edu.au.

Wollongong is a major regional city situated between pristine beaches and the picturesque Illawarra Escarpment. Wollongong is conveniently located just 1.5 hours south of Sydney and Sydney airport and 2.5 hours from Canberra.
